

# Ge & Luke

## About the artist

Passionate about music since childhood, Ge & Luke is a songwriter and producer duo focused on creating high quality music to inspire people around the world. Hailing from Switzerland, the brothers have put the sound of their childhood inspirations from the 80's and 90's into the EDM and pop world of today.

The duo brings together the musical prowess of Lukas on keyboards with the production magic of Gerhard to create the iconic Ge & Luke sound. Their style ranges from pop and EDM to broader dance productions, all with the goal of capturing the attention of fans of organic, uplifting and emotional melodies. They have also been involved in creating music for TV shows, artwork and other projects.

Ge & Luke embody the sound of the future by combining live instruments and synthesized production. Ge & Luke are strong believers in diversity and unifying global talent and have brought together a wide range of talented artists from around the world for their tracks.

## Services

Ge & Luke look forward to collaborating with other artists, whether for a new song or a remix of an existing track.

In addition, Ge & Luke offer a whole range of services, such as music for commercials, presentations, TV shows or movies. They work closely with a team of singers, musicians, animators, editors and developers and can provide you with a complete package according to your needs.
